

Serviced Apartments - Why use them?

Privacy and independence – forget bustling hotel receptions, noisy bars and crowded restaurants and opt for your own front door.

Quality locations – your choice is literally town or country – you can choose where you stay, from green belt, waterfront or city centre. There are more and more available round the country and abroad.

Quality accommodation – Most properties compare to good hotel rooms and are all 2 to 4 star standard (as rated by the English Tourist Board), well furnished, with comfortable living areas and fully equipped modern kitchens.

Fully serviced and more – Most properties are fully serviced and many offer additional services.

Cook and eat as you please – you'll no longer be restricted to hotel restaurants or eating out. There is nothing worse than eating in a restaurant on your own. You can cook in or order a take-away.

Friends to stay – if the house or apartment is big enough your family and friends can stay at no extra charge.

Substantial savings on hotel prices – You can make considerable savings; by opting for the hotel alternative you can save up to half the cost of a typical 3 star hotel.
